Convention attendance was 5.6% below last July, largely reflecting normal show rotations and calendar timing differences. Notes:

Air passengers and auto traffic counts are a blend of commercial, pass-thru and resident traffic in addition to visitors.

Occupancy, ADR and RevPAR data are derived from a survey sample representing more than 75% of the Las Vegas hotel inventory.

Inherent variability in survey sampling and occasional variations in survey participants can affect monthly and year-over-year comparisons.

**Beginning January 2026, the "All Major Highways" auto traffic metric has been discontinued, as several underlying counters have become less indicative of visitor trends.

Reporting now focuses on I-15 at Primm (NV/CA border) and I-11 at Hoover Dam (NV/AZ border).
